

Gentle Bi-Phase Eye Makeup Remover with eye eyelashes growth effect

Eye make-up remover

Create healthier-looking, strong-growing lashes while you remove the days's eye make up.

BI-PHASE eye makeup remover leaves a sensation of extreme softness, suited to the fine, weakened and lipid-poor skin of the eye contour area and lips. With stupefying ease and a non-oily effect, this two-phase makeup remover comes to grips with the most resistant, including waterproof, makeup.

Contains blend 2 layer naturally-derived active ingredients enriched with the botanical flower's water, rich in moisturising agents, to offer both gentle and effective cleansing action.

This very gentle formula was ophthalmologically and dermatologically tested and is particularly suitable for sensitive eyes and those who wear contact lenses.

Benefits:

- Botanical **Nucifera Flower Extract** perfectly cleans, softs and moisturizes the eyelids, the eyelashes supple and silky smooth.
- The formula's hero element's are **Sesamum Indicum Seed Oil** which helps to strengthen lashes, promoting **healthy lash growth** for more natural voluminous eyelashes.

Application:

Shake the bottle bevor use.

Use one soaked cotton pad and sweep it gently over **eyelids and lashes** (and for the lips, if needed). Keep the cotton pad in place for several seconds to dissolve the make-up, then remove it using a gentle wiping motion. Rinse carefully using a cotton pad soaked in pure water or Flower Toning Lotion.
