Natural Skin Care Revolution

Extract from the alpine globe daisy -(*Globularia cordifolia*)-

This tiny purple flower—called the globe daisy—blooms despite the extreme weather it endures perched on the side of the Swiss Alps. It's a stem cell based anti-aging body guard extract. Produced by plant cell culture, it offers various benefits pertaining to sustainability, safety, quality and sourcing. By mimicking defenses produced by hormesis, Resistem boosts skin's ability to fight against pro-aging agents and regenerate itself, protecting skin stem cells and stimulating sirtuin-1.

In vivo, globe daisy reduces micro-inflammations and redness, evening-out the complexion and enhancing skin's translucency and radiance.

24h gentle cream light

Quickly absorbed gel cream

Soft gel cream stimulate the defense system against skin aging. Contains unique extracts from the alpine globe daisy, protective and moisture-active ingredients such as Aloe Vera.

Confirmed results after use:

- ✓ Detoxifies skin by eliminating damaged proteins and other accumulated environmental wastes – think of it as a spring cleaning for your skin –
- ✓ Provides protection from oxidative stress thereby reducing the effects of cell aging.
- ✓ Increases Superoxide Dismutase (SOD) activity – SOD being one of the body's most powerful natural antioxidant enzymes.
- ✓ Stimulated the production of a protein (sirtuin-1) essential for skin longevity.

Key ingredients:

- Extract from the alpine globe daisy • Aloe Vera • Vitamin E + F
- Peach stone oil • Carrot root extract in sunflower oil

Usage tips

Apply in the mornings to the face and neck on clean, dry skin.
Use a gentle massaging motion.

Retail size: 50 ml. jar, Ref. N° 1351
