**Nude age defense cream**

renovar®

**LXR**

## Technology

LXR, The plant Gynostemma pentaphyllum activates the **liver X receptor (LXR)**, a master regulator of epidermal lipid synthesis. Through the stimulation of the epidermal lipid synthesis, the skin barrier is restored from within.

Designed,  
developed and  
made in Germany

### Special pigment technology:

The light-gray formulation contains precious encapsulated pigments adapt to each skin type, which are released on the skin only by mechanical influence (during application) and support and balance the natural skin tone. The complexion is lightly tinted – but never looks made-up.

### Application:

Apply sparingly onto the cleansed skin in the morning or as and when required and work in gently. Also suitable for men.

Retail size: 30 ml tube, Ref. N° 1109
