JEAN D'ARCEL
COSMETIQUE

sensitive

Designed,
developed and
made in Germany

Helps correct imperfections, dryness and roughness while providing optimal hydration. Strengthens skin's resistance for clear and stable skin every day.

sensitive

stress relief cream

nourishing day and night product designed
for dry and sensitive skin

Rich and creamy nourishing product designed for dry and sensitive skin. Plant-based extracts (Boerhavia diffusa, shea butter, and frankincense tree) stimulate lipid production and reinforce the skin barrier while promoting the skin's hydration. Oil from the seeds of the Amaranth make skin feel immediately more soft and comfortable. Skin is radiant, nourished, and soft.

This product is ideal for chronic or temporary skin dryness. Non-comedogenic. Free of parabens, mineral oils and colorants.

Confirmed results after use:

Nourished, hydrated, and softened, the skin regains its comfortable feeling and radiance. Day after day, it becomes less dry.

Contains key ingredients:

- Hyaluronic acid • Shea butter • Almond oil • Hypocalm 3-Complex
(Boerhavia diffusa extract, Extract from frankincense tree, Amaranth seed oil)

Usage tips:

Each morning or evening, apply stress relief cream on clean, dry skin on the face and neck in a gentle massaging motion.

Retail size: 50 ml. jar, Ref. N° 1331

Professional size: 250 ml. jar, Ref. N° 7391

sensitive

stress relief cream rich

nourishing night product designed
for very dry and sensitive skin

sensitive

eye contour balm

Calming eye emulsion for especially sensitive skin around the eyes

Calms and strengthens the thin and highly sensitive area around the eyes. The long-lasting supply with moisture specifically contributes to relaxation. This can visibly reduce signs of fatigue such as eye wrinkles, eye shadows and slight swellings. Free of parabens, mineral oils, colorants and PEG-containing emulsifiers.

- ✓ Regulates over-sensitivity of the eye area.
- ✓ Counters irritations and redness.
- ✓ Structures the skin's resistance.
- ✓ Diminishes sensation of tightness. and returns the skin back to a natural balance.
- ✓ Supports microcirculation.
- ✓ Improves firmness and elasticity.

Contains key ingredients:

- Hyaluronic acid • **Regu-Age®** • Jojoba oil • Vitamin E
- Hypocalm 3-Complex (Boerhavia diffusa extract, Extract from frankincense tree, Amaranth seed oil)

Usage tips

Use morning and/or evening on clean, dry skin before applying any other product. Apply by smoothing over the area around the eyes and lips, then tap lightly with your fingertips.

Retail size: 15 ml. dispenser, Ref. N° 1334

Professional size: 50 ml. dispenser, Ref. N° 7394

sensitive

couperose cream

Special cream for local application against Rosacea and telangiectasia

Special cream for sensitive, reddened skin with Rosacea. An adstringent anti-erythrosis complex helps strengthen the vascular walls and so reduce the visible reddening. Colourneutralising interference pigments conceal the reddened areas of the skin also visually. Free of parabens, mineral oils, colorants and PEG-containing emulsifiers.

- ✓ Strengthening effect on the capillaries.
- ✓ Stimulates microcirculation and mobilizes the vessels.
- ✓ Visibly relieves the problems of Rosacea.
- ✓ Mildly astringent effect.
- ✓ New interference pigments provide for immediate optical effect.

Contains key ingredients:

- D-Panthenol • Macadamia nut oil
- Hypocalm 3-Complex (Boerhavia diffusa extract, Extract from frankincense tree, Amaranth seed oil)

Usage tips

Thinly apply and locally work into cleansed skin.

Suitable for use of day or night cream overtop.

Retail size: 30 ml. tube, Ref. N° 1335

Professional size: 100 ml. tube, Ref. N° 7395

sensitive

gentle couperose cure

Irritant-soothing ampoule concentrate for sensitive skin and against Rosacea

Soothing concentrate of active agents for irritated, reddened skin with a tendency to couperose. Thanks to a special anti-Rosacea complex the skin's resistivity against stress reactions can regenerate. The soothing treat for irritated skin reduces reddening quicker and helps to reduce red capillaries. Free of parabens, mineral oils, colorants and PEG-containing emulsifiers.

- ✓ Especially for reddened and irritated skin.
- ✓ Strengthens the skin and vessels.
- ✓ Allows redness to fade away more quickly.
- ✓ The anti-Rosacea complex helps to build up barrier functions.
- ✓ Vessels and connective tissue are regenerated.

sensitive

The patented key active agents

Calm itself – **HypoCalm³** newly developed complex with 3 components:

HypoCalm³ components 1

Boerhavia diffusa extract, from the roots of Indian Mirabilis jalapa.
Specially formulated against neurogenic skin redness
(irritations triggered from the body itself).
Lowers the threshold of sensitive skin to the normal level.

HypoCalm³ components 2

Resin from the frankincense tree, from Indian natural therapy.

- anti-inflammatory effect.
- calming, redness recedes.
- irritation and itchiness are significantly reduced.

HypoCalm³ components 3

Oil from the seeds of the Amaranth, a valuable cereal of South American natives.

- provides the skin with the power and substance, to remain elastic.
- maintains the skin's natural function.
- acts against free radicals.
- protects against UV irritation.
- indicates activity against ageing.
- reduces transepidermal water loss.

Anti couperosis complex

For improving the appearance of the skin, consists of extracts of red alge, horse chestnuts and (the active agent Troxerutin).

- positive influence on cellular respiration and the liveability of cells.
- stimulation of microcirculation.
- narrowing of vessels.
- stases and swellings fade away quicker.
- inflammation is prevented.
- overall , moisture penetration of the skin is optimised.
